

# SRK-11™

## Self Rescue Kits

The **SRK-11™**, Tech Safety Lines' unique emergency egress and Self-Rescue Kit, utilizes a high-heat line with a tensile strength exceeding 7000 lbs. The **SRK-11™** features the Military Compact Descender, the MCD. This unique descent device provides a rapid means of descent – safeguarded by both a passive and active braking system.

The **SRK-11™** Self-Rescue Kit is certified by UL as being ANSI Z359.4-October, 2007 compliant which is the ANSI standard for Safety Requirements for Assisted-Rescue and Self-Rescue Systems, Subsystems and Components.

# LANYARDS

## StepWise™ Lanyard

The Tech Safety Lines StepWise™ Fall Arrest Lanyard is your guard against suspension trauma with a built-in etrier that deploys when a worker falls. This webbed ladder offers a foothold for a fallen worker to place his feet, safely preventing suspension trauma. The StepWise™ Fall Arrest Lanyard includes rescue rings for self-rescue used in conjunction with the SRK11™. A choice of connectors is available: large or small snap hooks, carabiners, or rebar hooks. Simply custom order your the lanyard to meet your company's specifications.
